Other Relevant Information

Information collected: See Protective Intelligence Unit Update #163. Freedom Convoy organizers held a press conference at 1330hrs. Participants included **Personal Info.** and **Personal Info.** **Personal Info.** and **Perso** spoke to the same theme: That Canadians are still allowed to come to Ottawa with their children to engage in peaceful, lawful protests and that the government proclamation order only restricts if the intention was to engage in violence, bloc critical infrastructure or disrupt trade. They called for Canadians to come to Ottawa to make it harder for the government to get the police to follow what they called illegal order of using force against a peaceful demonstration. **Person** calls for everyone who can come to Ottawa to come.

All three individuals have contravened to s. 5 of the Emergency Measures Regulations by inviting a person to participate in an assembly that may reasonably be expected to lead to a breach of the peace.
